International Education Administrators Seminars

Fulbright Scholars, including both faculty and administrators, are uniquely able to infuse curricula with cross-cultural perspectives, revitalize teaching methods, and open doors to collaboration with colleagues and students throughout the world.

The Fulbright International Education Administrators (IEA) Seminars offer fully-funded awards for U.S. higher education administrators to participate in an intensive two-week seminar abroad to learn about other countries’ higher education systems.

Immerse Yourself in Another Higher Education System

Seminar participants develop new perspectives and insights for improving internationalization opportunities on their campus. All travel, schedules, and accommodations are provided by the Fulbright IEA Program. Seminars to France, Germany, India, Japan, Korea, Russia and Taiwan include:

- Campus visits to a cross-section of universities and colleges
- Briefings from faculty and administration at public and private higher education institutions, as well as from leading educational experts and government officials
- Tours of historical and cultural sites

“My experience as a Fulbright IEA grantee was outstanding. I made important gains in my professional research and networking as well as having the personal transformation of learning about a new culture.”

“This seminar has played a transformative role for me... I am more adept at engaging and understanding cultural interactions with my Korean colleagues and students. I also now have the knowledge and enthusiasm to encourage more students to study in South Korea for their semester abroad. This has been the highlight of my career thus far, and I will encourage all of my colleagues in international education to apply for an IEA seminar.”
