

Fulbright Visiting (Non-U.S.) Scholar Program Application Transition FAQs

Q: What happened to my application?

A: In an effort to provide you with the best quality application experience, IIE and Embark have been working the past several months in an effort to offer you access to the new Embark Campus 2 platform. Your application data and documents have been migrated to the new application platform, which you will recognize as a streamlined version of the previous application you have been using.

Q: What can I expect as a result of this transition?

A: This week, your application information for the Fulbright Visiting Scholar Program has been migrated to the Campus 2 platform. When you log into the application using the new URL below, you will access your in-progress application and can begin where you left off. Your log-in credentials, both e-mail and password, remain the same.

Q: Are there updated instructions?

A: General instructions are available here: <http://www.cies.org/system/files/private-documents/Visiting-Scholar-Application-Instructions.pdf>

Q: What URL should I use?

A: Please bookmark and use the following URL moving forward:
Fulbright Visiting Scholar Program: <https://iie.embark.com/apply/visitingscholars>

Q: I am having difficulties logging-in. What should I do?

A: Please first try to reset your password using the 'Forgot my password?' link at the bottom of the application home page. If you are still not able to reach your application even after resetting your password, please contact fsponline@iie.org.

Q: What can my recommenders expect as a result of this transition?

A: Recommender data and documents have been likewise migrated to the Campus 2 platform. Not started or pending recommenders will receive a reminder message along with a new URL to start or complete their recommendation form. You will not need to re-register your recommenders.

Q: What if I identify something that was missing from my old application?

A: Please alert IIE immediately at fsponline@iie.org to investigate the issue and get back to you ASAP.

Q: Are there any application content changes coinciding with this upgrade?

A: No. Though the look and feel has been updated, application requirements have not changed.

Q: Further technical issues or questions?

A: Please reach out to fsponline@iie.org for assistance.
